Re: Conflict Minerals - Section 1502 of the Dodd-Frank Act of 2012

Ultrachem, Inc. confirms that its finished lubricant products (both manufactured and purchased), lubricant additives (both manufactured and purchased) and their manufacturing processes in the United States are free from the minerals columbite-tantalite, cassiterite, gold and wolframite sourced from The Democratic Republic of Congo, Angola, Burundi, Central Africa, Republic of the Congo, Rwanda, South Sudan, Tanzania, Uganda, and Zambia (the covered countries under Section 1502 of the Act). Thus, SOPUS Products manufactured products are in compliance with Section 1502 of the Dodd-Frank Act of 2012. Further, there are no conflict minerals utilized in any Ultrachem product formulations or on-site in any manner.

Please contact us with any questions or concerns.

Best regards,
