

January 1, 2022

To: Ultrachem Customers

This letter is to certify the following:

All products marketed by Ultrachem are wholly manufactured in the United States of America at our facility in New Castle, Delaware.

Lubricants manufactured by Ultrachem do not contain any of the (224) materials on the REACH substances of very high concern (SVHC) list. Also, all appropriate materials shipping into the EU have been pre-registered within the allotted times forecast and will be registered within the times forecast mandated by the European Legislation.

Lubricants manufactured by Ultrachem, Inc. do not contain any European Union RoHS 3.0 regulated substances. None of the following materials are present in any of Ultrachem's products: Mercury, Lead, Cadmium, Hexavalent Chromium, Polybrominated Biphenyls and Polybrominated Diphenyl Ethers, Di-(2-ethylhexyl) phthalates, Butyl benzyl phthalates, Di-n-butyl phthalates, and/or Diisobutyl Phthalates.

All raw materials used in Ultrachem formulations are listed or exempt from the following inventory lists:

TSCA
DSL
EINECS/ELINCS

Ultrachem products do not contain any persistent organic pollutants (POPs).

Best Regards,

A handwritten signature in black ink, appearing to read 'Jonathan Rickner'.
